

## **Prayer of Divine Protection**

I would suggest saying this prayer daily, as it will begin to accumulate the power of Divine White Light around you and all that you ask to be surrounded. After a while, the White Light will be so accumulated that even if you forget to say this prayer for a day or so, it will keep working.

*God bless myself, my home, my car, my family, and my friends (etc.).  
Surround myself and all that I ask with your Divine White Light of protection. I know that your Divine White Light of protection is absolute, constant, and multiplying in my life now. Always keeping myself and all that is mine safe from any negative thoughts, persons, things, entities, energies and accidents.*

*Thank you, God.*

*And so it is done.*

*Amen.*
